Questions & Answers

What is Concierge: Cost Assurance Program?
Concierge: Cost Assurance Program (C-CAP) is a fixed payment plan designed to control a majority of client expenses and costs incurred for addiction treatment services at Guest House. It is a fixed payment plan that allows a diocese/religious community to manage its budget and fiduciary responsibilities while simultaneously allowing for an unlimited number of clergy and religious the access that they may need to the life-saving and vocation-saving, treatment programs at Guest House.

What does the C-CAP Program Cover?
The C-CAP Program covers all of the primary and routine billable services related to a standard inpatient stay at Guest House. A list of the covered services may be found on the inner-flap of this brochure. Outside medical, psychological, and dental services are not covered, but are usually reimbursable under standard insurance programs.

What is the advantage of C-CAP Program to a diocese/religious community?
- Affordable access to best-in-class long-term residential treatment and care.
- Effective cost management related the treatment and care of clients – with NO financial surprises!
- Actual cost savings! Whether 1 person per year is in need of treatment, or 3 people…your cost remains fixed! You stay on budget, with NO net-new charges!

How does the program work?
Guest House and the diocese/religious community enters into a Client Services Agreement, which states that the registered members of the C-CAP Program will receive addiction treatment services provided by Guest House at “no additional charge.” The diocese/religious community pays a monthly membership fee, per member, for a three (3) year period. The membership fee per member does not change during the duration of the Agreement. Individual members must be added/deleted, as necessary, on a case-by-case basis. At the end of the three (3) year Agreement, Guest House and the diocese/religious community will have an opportunity to re-evaluate and negotiate an Agreement for another subsequent three-year period.

Do all C-CAP clients receive the same quality of care that Guest House is known for?
Of course! C-CAP is strictly a method of payment and has nothing to do with treatment. Our team of certified professionals are focused on the health and well-being of our clients – financial matters are never considered by our treatment team when it comes to the needs of our clients.
