WOMEN'S TREATMENT

The women's program at Guest House is located in our new women's treatment center which opened in the fall of 2014. The new women's center is adjoined to the men's center via an enclosed walkway, allowing staff to support clients in both centers effectively and efficiently. Similar to the men's center, the women's facility offers ten private suites, dining area with dietician-managed meal plans, rooms for individual and group therapy, common relaxation space and a chapel – all in a tranquil and spirit-filled setting. Each sister is welcomed into the program with an anointing ceremony. At the end of her treatment, she is able to participate in a departure ceremony – giving her closure to her past and hope for her future in recovery.

Compassion, Hope, Recovery

Strengthening Catholic Communities since 1956

1601 Joslyn Road, Lake Orion, Michigan 48360

Our treatment and recovery programs are holistically based on the spirituality of twelve-step recovery and focus on providing a haven for each client to return to wellness.

The programmatic content is vital to physical healing and includes alternative approaches such as tai chi, auricular acupuncture, therapeutic massage and other exercise. Respectively, spiritual healing is necessary for our priests, deacons, brothers, seminarians, and men and women religious; and we honor their human dignity and vocational callings. Mass is celebrated daily (except Saturday for women), and experience tells us that a nurturing environment that addresses all aspects of healing supports quality recovery and overall health and wellness – and restores relationships with God and a return to ministry.
